01 TECHNICAL DETAILS

ITEM	REQUIREMENT
CDJs	3x Pioneer CDJ-3000 — Ethernet linked, updated to the latest firmware, in good condition.
Mixer	1x Pioneer DJM-900NXS2 or higher.
Monitoring	2x high-power monitor speakers oriented towards the DJ. Sound settings to be controlled from the DJ mixer.
Sound system	A sound system in good condition: high quality speakers and amplifier with sufficient power for the venue.

02 DJ BOOTH SPECS

- The DJ booth should be placed on a shockproof and sound-absorbing surface.
- To prevent back injuries, the DJ booth must reach a minimum height of 1 meter from the ground surface.
- Decent lighting to set up gear and maintain a clear view of the booth.
- The DJ booth must be ready for set-up at least 30 minutes before the show and clearly visible to the audience.

03 CROWD / AUDIENCE

- A crowd of people behind the artist during the set is heavily preferred to create an on-stage atmosphere.
